MISSION STATEMENT

It is my mission to nurture personal growth in each student by capturing the joy of music.

While capturing this joy of music, students of all ages will:

- ❖ Encourage their intellectual growth through the use of critical and reasoned thinking;
- ❖ Nourish their social growth through the sharing of musical ideas and achievement;
- ❖ Foster their emotional growth through the creative and artistic expression of the heart.

The development of each of these skills will be transferred to all areas of the student's life, regardless of the specific endeavor.
